1. ShortBio

I completed a PhD in Computer Science at the Institute of Mathematics and Statistics at University of São Paulo in February 2015. Currently, I am a Post-Doctoral Scholar at School of Informatics, Computing and Cyber Systems at Northern Arizona University, on leave of absence from my Assistant Professor position at the Federal University of Technology – Paraná (UTFPR), Brazil. I was a visiting scholar at the University of California, Irvine from July 2013 to January 2014. I am member of the Software Engineering and Collaborative Systems Research Group from University of São Paulo, and the Research Group on Information Systems from State University of Maringá (UEM). I research the intersections of Software Engineering (SE) and Computer Supported Cooperative Work (CSCW). Currently, I am working on the support of newcomers to Open Source Software development communities. I am interested in Open Source Software, Human Aspects of Software Engineering, Empirical Software Engineering, Data Analysis, Social Network Analysis, and Mining Software Repositories techniques.
